Footnotes: We have provided per sq. mile cost for the optional products, however due to the complex vairables within each individual county (i.e. number of parcels, road miles, buldings, landuse subsets, attribution,etc.) additional services such as landuse , mobile mapping, asset management and application development fees are not able to be provided in a per square mile fashion and thus, we have provided unit costs (either based upon our current GIS State Term Rate Table or per road mile costs).

Footnote 1 = Mobile Mapping: \$200.00 per road mile for the base acquisition, processing, point cloud data in .las format to support assest management, pavement management, and other GIS objectives. (minimum of 200 road miles)
